### **Access to CalFresh**

[“Legal immigrants who get government assistance won’t get green cards under Trump proposal”](#) (sacbee.com, Sept. 22): CalFresh helped me put food on the table when I was a single mother. Now I work at the Food Bank of Contra Costa and Solano.

Unfortunately, the Trump administration has released a plan that would make it difficult for immigrants to receive green cards if they use the same benefits I used. I’ve already received calls from parents asking to terminate their children’s food assistance for fear that it could lead to their family’s separation – even though it wouldn’t. Call your food bank if you need help or have questions about this plan, which has not yet gone into effect.
